Master of Education in

Instructional Design and Technology

Get More "Aha" Moments

American College of Education is founded by educators, for educators. We offer accredited online master's and doctorate degrees, as well as certificate programs. As the fifth largest conferrer of Master of Education degrees in the nation**, we have more than 30 programs to choose from based on your interests and career aspirations.

Leaders in all sectors need to improve digital communication skills, whether they are creating a program for young children, delivering training to a nonprofit board, or introducing a new strategy in a business setting. Organizations need instructional designers who can keep pace with rapid changes in technology while using resources wisely.

With your master's degree in Instructional Design and Technology, you learn how people learn in both online and face-to-face environments. When you know how people learn, you can organize and design online and digital instructional programs intentionally so delivery fits the content. This degree applies to many sectors, including nonprofit, business, government, and K-12 settings, providing many paths for career advancement.

"By earning an ACE master's degree, I feel more prepared to teach. My degree has prepared me to teach other educators about technology and how to integrate it into their own classrooms."

The More You Learn, The More Your Students Learn

Want to know our learning objectives? Here are the big ideas you will learn with the Master of Education in Instructional Design and Technology program.

Reach Your Audience

Technology changes quickly, and instructional designers need to keep up with changes in technology while determining what is most useful and effective according to specific instructional goals. Learn how to use technology most effectively to create intuitive digital learning environments that engage and inform your audience.

Assess Program Effectiveness

Learn to use data and ongoing assessments so you can help your audience to meet and exceed established goals. Select the right programs based upon prior research. Use peer-reviewed research and ethical guidelines to make practical and effective changes as you design and improve instructional programs.

Master Your Technical Skills

Build your technical skills in a variety of online learning programs, and learn how to incorporate both the big picture and details into your design. Learn how to manage complex projects from concept to delivery.

Courses

- DL5703 Instructional Design Fundamentals
- DL5713 Digital Age Learning Environments
- DL5723 Applying Learning Theories in Instructional Design
- DL5733 Design of Instructional Media
- DL5743 Advanced Design of Instructional Media
- DL5773 Online Course Design
- DL5783 Engaging Learners in Online Instruction
- DL5803 Evaluation and Assessment of Instructional Design
- RES5153 Research Methods
- DL5763 Trends in Instructional Design
- DL5091 Capstone Experience for Instructional Design

About ACE
